Mahmoud Zaher

Senior Flutter Developer

zahermahmoud80@gmail.com +201156643287 Cairo, Egypt LinkedIn GitHub Portfolio

PROFESSIONAL SUMMARY

Senior Flutter Developer with 5+ years of experience building and shipping 25+ production Android and iOS applications. Led development of a ranger operations app that enabled offline fieldwork and helped expand operations from 1 to 10 centers. Leverages AI-assisted engineering workflows to accelerate development, debugging, and refactoring, with AI-generated code validated through review and testing. Combines hands-on development with mobile architecture, native integration, technical decision-making, and developer mentoring, from initial development to store release.

PROFESSIONAL EXPERIENCE

Senior Flutter Developer | Imam Turki Bin Abdullah Royal Nature Reserve Development Authority 11/2025 – Present
Remote, Saudi Arabia

- Led the mobile team and end-to-end Flutter development of a ranger field operations app, guiding architecture decisions and mentoring developers while digitizing manual patrol workflows and helping expand operations from 1 to 10 centers.
- Integrated OsmAnd navigation and tracking through session IDs and GPX route files, enabling route-based verification of completed patrols.
- Implemented offline task management and persistent synchronization queues, enabling rangers to continue fieldwork without network coverage and synchronize tasks, observations, and patrol data when connectivity returned.

Senior Flutter Developer | Beetleware 11/2023 – 11/2025
Hybrid, Maadi, Egypt

- Developed and delivered features across 6+ production Flutter applications for Android and iOS, applying Clean Architecture and collaborating with product, backend, QA, and design teams through release.
- Migrated KhairUmmah from its previous technology stack to Flutter, resolving existing issues and improving application responsiveness, stability, and maintainability.
- Implemented end-to-end podcast audio playback for Read To Lead, including in-app and background playback, lock-screen controls, playback position recovery, and audio interruption handling for calls and audio focus changes.

Senior Flutter Developer & Developer Advocate | Power Maas 10/2022 – 11/2023
On-site, Saudi Arabia

- Led end-to-end technical delivery of two products—a multi-vendor home services platform and an internal HR app—analyzing requirements, translating them into UI/UX briefs, coordinating backend API development, and building and integrating the Flutter applications.
- Served as Developer Advocate at technical events and stakeholder meetings, communicating technical solutions and translating business requirements into actionable development plans.

Flutter Developer | DUBISIGN 02/2022 – 09/2022
On-site, Mansoura, Egypt

- Contributed to the development of production Flutter applications by implementing new features, integrating REST APIs, and maintaining clean, scalable code.
- Collaborated with senior developers throughout the software development lifecycle, participating in feature delivery, testing, and application optimization.

Flutter Developer | Exemore 03/2022 – 08/2022
Remote (Part-Time)

- Maintained and enhanced a Flutter e-commerce app supporting international shipping, improving existing features, stability, and performance.
- Managed the legacy codebase and prepared production releases for Google Play and the App Store.

Flutter Instructor | Techunique 10/2021 – 02/2022
Remote (Part-time)

- Delivered practical Flutter and Dart training to Zagazig University students, covering Clean Architecture, state management, and REST APIs, and mentored them through hands-on projects and code reviews.

Flutter Developer | Deltana-IT 09/2021 – 01/2022
Hybrid, Mansoura, Egypt

- Developed a multi-vendor healthcare app connecting patients with doctors through online consultations, video calls, and chat.
- Implemented consultation requests, prescription workflows, and medical advice features.
- Collaborated with backend engineers to integrate APIs and improve performance across the patient and doctor experiences.

PROJECTS

KhairUmmah – A comprehensive Islamic application featuring Quran memorization, prayer times, Azkar, Qibla, home screen widgets, and location-based services. 1K+ downloads, 4.9★ (69 reviews) on Google Play.
Google Play | App Store

First Wash – A car care and e-commerce platform for booking vehicle services, purchasing products, and managing online orders.
Google Play | App Store | Web

SBA Academy – A TVTC-accredited media training platform focused on developing media talent through professional, structured training programs.
Google Play | App Store

01 GOV – Arabic platform promoting innovation and collaboration within government entities.
Google Play | App Store

Shipper Operation – Back-office solution for assigning and managing delivery trips for logistics teams.
Google Play | App Store

Read To Lead – Arabic app offering book summaries, articles, and podcasts in business, entrepreneurship, and self-development.
Google Play | App Store

MaharaTufl – Educational app that helps young children build early language skills through engaging interactive content. 100K+ downloads, 4.4★ (713 reviews) on Google Play; 3.9★ (252 ratings) on the App Store.
Google Play | App Store

Tal3eeb – A sports and community platform that enables users to discover, organize, and participate in sports activities while connecting with other players.
Google Play | App Store

Athkar & Doaa –Offers daily athkar, duas, and prayer reminders to support consistent worship routines. 100K+ downloads, 4.7★ (671 reviews) on Google Play; 4.7★ (13 ratings) on the App Store.
Google Play | App Store

ExeMore – An e-commerce platform enabling businesses to manage and sell products across local and international markets.
Google Play | App Store

Water Note – Monitors users' daily water consumption and provides personalized hydration reminders.
Google Play | App Store

Water Note Driver – Helps drivers efficiently manage and track their water delivery routes and tasks.
Google Play | App Store

EDUCATION

- Diploma in Front-End & Cross-Platform Mobile Development, ITI, Mansoura, Apr 2021 – Sep 2021
- B.Sc. in Information Technology, Mansoura University, 2015 – 2019 | Graduation Project: Smart Irrigation System Using IoT (Grade: Excellent)

TECHNICAL SKILLS

- **Flutter & Dart:** Flutter, Dart, Flutter Web, Responsive & Adaptive UI, Custom Widgets, Localization & RTL, Async/Await, Streams, Isolates, Null Safety, Freezed, GoRouter.
- **Architecture & State Management:** Clean Architecture, MVVM, SOLID, Repository Pattern, Modular Architecture (Melos), BLoC/Cubit, Riverpod, Provider, GetX, Dependency Injection (GetIt).
- **Offline & Data:** Offline Caching & Synchronization, Hive, SQLite, Flutter Secure Storage, REST APIs, Dio, WebSockets, Firebase (Authentication, Firestore, FCM, Crashlytics, Analytics, Remote Config).
- **Native & Platform Integration:** MethodChannels, Native SDK Integration (Kotlin, Swift, Java), Background Tasks, WorkManager, Google Maps, Payment Gateways, Deep Linking (Branch.io).
- **Testing & Performance:** Unit, Widget, Integration & Golden Tests, TDD, Mocktail, Flutter DevTools, Memory Profiling, Performance Optimization.
- **CI/CD & Release Management:** Git/GitHub (Actions), GitLab, Azure DevOps, Fastlane, Codemagic, Bitrise, Build Flavors, App Signing, App Store Connect, Google Play Console.
- **Mobile Security:** OAuth2, Secure Authentication, Token Storage, API Security, Certificate Pinning, Biometrics, OWASP Mobile Security Principles, STRIDE Threat Modeling.
- **Leadership:** Team Leadership, Developer Mentoring, Code Reviews, Agile/Scrum.
- **AI-Assisted Engineering:** ChatGPT, Claude, Codex, Model Context Protocol (MCP), Structured Prompting, Codebase Context Management, Technical Planning & Task Decomposition, AI-Assisted Implementation, Debugging & Refactoring, Code Review & Testing of AI-Generated Code.

ADDITIONAL INFORMATION

Languages: Arabic (Native), English (Professional proficiency, written and spoken). | **Military Service:** Completed. | **Nationality:** Egyptian.
